6. how do we get dengue

GENERATED ANS

1. Calcium channel blockers are used to treat high blood pressure, correct abnormal heart rhythms, relieve angina pectoris, treat panic attacks and bipolar disorder, and prevent migraine headaches.
2. Bipolar disorder is a severe mental illness in which a person has extreme mood swings, ranging from a highly excited state—sometimes with a false sense of well-being—to depression. Depression can also occur in bipolar disorder, an affective mental illness that causes radical emotional changes and mood swings, from manic highs to depressive lows. The majority of bipolar individuals experience alternating episodes of mania and depression.
3. Buckman, Robert. What You Really Need to Know about Cancer: A Comprehensive Guide for Patients and Their Families. Murphy, Gerald P. American Cancer Textbook of Clinical Oncology. Murphy, Gerald P. Informed Decisions: The Complete Book of Cancer Diagnosis, Treatment and Recovery. Runowicz, Carolyn D., Jeanne A. Petrek, and Ted S. Gansler. Women and Cancer: A Thorough and Compassionate Resource for Patients and their Families.
4. Acute illness, bacterial or viral infection or inflammation of the pharynx (pharyngitis).
5. The provided text states that dengue fever is endemic in the Middle East, the far East, Africa, and the Caribbean Islands. It does not specify which region has the most cases.

6. A mosquito carrying the arbovirus bites a human, passing the virus on.
